Rhonda was born in the Midwestern section of the United States. At the age of four, she began to have visions of future events. As she grew, so did the visions, in content and volume. A professional psychic for the last 20 plus years, she found that she could tell her clients what was coming up, but she did not have the tools to help them handle the information or the motivation necessary to achieve their highest potential. Rhonda certified as a Hypnotherapist in 1994 and since has received many awards and more than 30 certifications in hypnosis. Hypnotherapy brought it all together for her, allowing her to integrate her natural intuitive nature with scientific method. She assists her clients to: Control weight, increase income, over come fears and phobias, explore past and future lives, gain self-esteem, increase motivation and achieve their dreams. Rhonda has helped to guide and motivate others to make positive changes in their lives from the beginning.

She practices in the Southern California Mountains where she lives with her husband of 20 years and her pets.
